

# MAUI-JustifyLabel

---

Justify label for MAUI

Provides the ability to justify the text in a Label via attached property or by using a custom control.

nuget v1.0.0

Windows

Android

iOS

MacCatalysis

Usage:

Attached property

```
xmlns:justifiedLabel="clr-namespace:JustifyLabel;assembly=JustifyLabel"
```

```
<Label  
    justifiedLabel:Label.JustifyText="True"  
    Text="Some text" />
```

Custom control

On MauiProgram.cs

```
var builder = MauiApp.CreateBuilder();  
builder  
    .UseMauiApp<App>()
```

```
.UseJustifiedLabel() //Add this line
.ConfigureFonts(fonts =>
{
    fonts.AddFont("OpenSans-Regular.ttf", "OpenSansRegular");
    fonts.AddFont("OpenSans-Semibold.ttf", "OpenSansSemibold");
});
```

```
xmlns:justifiedLabel="clr-namespace:JustifyLabel;assembly=JustifyLabel"
```

```
<justifiedLabel:JustifiedLabel
    JustifyText="True"
    Text="Some text" />
```
